TO WHOM IT MAY  
CONCERN

Dear Sir/Ma,

**RE: JAYDEN ADJARHO/ 2 MONTHS OLD/ MALE/ 181909 (CENTRAL HOSPITAL WARRI)**

The above name child was seen in Central Hospital Warri where he was admitted for heart failure. He had chest radiograph and echocardiogram that confirmed he has a congenital heart disease (Large VSD and a Secundum ASD). He is currently on medications for heart failure but without heart surgery, the patient will not survive. The heart surgery will cost about 8.5 Million naira in Obafemi Awolowo University Teaching Hospital, Ife. The parents have requested for this medical reports to raise funds for the surgery.

Please be informed that the managing team does not take responsibility for the funds being raised for the child. Kindly reach the managing team through the number provided for any further information. Thank you.

Yours faithfully,

Dr. Abolodje Efe
